Substance Abuse and Mental Health Services Administration

Children With Serious Emotional Disturbance; Estimation Methodology

AGENCY: Center for Mental Health Services, Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Final notice.

SUMMARY: This notice describes the final methodology to identify and estimate the number of children with a serious emotional disturbance (SED) within each State. This notice is being published as part of the requirements of Public Law 102-321, the ADAMHA Reorganization Act of 1992.

EFFECTIVE DATE: October 1, 1998.

Background

Public Law 102-321, the ADAMHA Reorganization Act of 1992, amended the Public Health Service Act and created the Substance Abuse and Mental Health Services Administration (SAMHSA). The Center for Mental Health Services (CMHS) was established within SAMHSA to coordinate Federal efforts in the prevention and treatment of mental illness, and the promotion of mental health. Title II of Public Law 102-321 establishes a Block Grant for Community Mental Health Services, administered by CMHS, that permits the allocation of funds to States for the provision of community mental health services for children with a SED and adults with a serious mental illness (SMI). Public Law 102-321 stipulates that States estimate the incidence (number of new cases) and prevalence (total number of cases in a year) of individuals with either SED or SMI in their applications for block grant funds.
